**WELLINGTON ELECTRICITY SUBMISSION ON EGCC CONSULTATION PAPER RELATING TO
PROPOSED CHANGES TO THE SCHEME**

Dear Hellene

Wellington Electricity appreciates the opportunity to provide comments on the proposal to change the Scheme documents to comply with the Achievement Standards set by the Electricity Commission and Gas Industry Company.

Wellington Electricity generally supports the principle of retaining the current industry based Scheme. On that basis Wellington Electricity generally supports the proposed changes to the Scheme documents.

Attached is Wellington Electricity's formal submission.

Please do not hesitate to contact me if you require further information or explanation

Best regards

Andy Wilson

Attachment – Wellington Electricity submission

Question #1: Which changes to the Scheme documents listed in Appendix 1 do not meet the regulator's Achievement Standards listed in Appendix II?

Proposed amendment	Reason it does not meet achievement standard
Amendment B1.2(ba) [AS5.2.1]	The amendment should affirm that provision on non-confidential information within the written report will be provided to <i>"the parties involved in the dispute"</i> . The proposed amendment infers that the written report will be publicly available, which may not be appropriate.

Question #2: Are here any other amendments that need to be made to the Scheme documents in order to meet the regulators' Achievement Standards listed in Appendix II

Proposed amendment	Reason it does not meet achievement standard
None	n/a
